

# THE COSMOPOLITIAN PROJECT

We want to make the world a little fairer and developed a holistic concept, which we would like to put across.

Our starting point is to find new forms in a constantly restructuring, global world.

What do you mean by that?

Nationatities dissolve hybrid identities develop.

Nation states becoming economic blocks, dialogues emerge from monologues. In this growing global space we place ourselves.

Our effort is to shape largely unused structures, that aim to strike where it matters most, in the agricultural communities. To those who wish to follow, we explain how a brand rooted in Kenya and Germany can effectively create value for all communities.
